## SUMMARY

---

Bali-based Web Developer with 4+ years of experience and a strong foundation in UI/UX design. I specialize in building and maintaining high-performance, SEO-friendly web solutions using PHP (WordPress, WooCommerce) and the MERN stack (React, Node.js). Currently pursuing dual bachelor's degrees in Information Technology and Information Systems, I am passionate about leveraging new technologies to deliver exceptional results!

## EXPERIENCE

---

### Web Developer

01/2025 - Present

Valentino Jehaut ↗

Experienced Web Designer & Developer specializes in developing custom web-based solutions for clients using MERN Stack & Wordpress. Other than that, He's also available in developing using new tech stacks.

### Web Developer

10/2022 - 09/2025

VDM (Previously as Mash Up R Japan) ↗

In my role as a Web Developer at VDM (previously known as Mashup R Japan), I was tasked with the end-to-end design, development, and maintenance of key web properties. I transformed initial concepts and business requirements into fully functional, user-centric websites, often working as the sole WordPress developer on complex projects. My responsibilities spanned from UI/UX design and research to custom back-end development and cloud infrastructure management.

### UI/UX Designer

10/2021 - 07/2023

Bendega

- Designed and developed a new website for Bendega using Figma and ReactJS, resulting in a modern and user-friendly platform (bendega.id).
- Represented Bendega at various events such as Inkuri and CCL Changemakers, showcasing the company's values and services.

### Web Developer

07/2021 - 06/2023

Bali Mountain Retreat

- Redesigned Bali Mountain Retreat's website using Wordpress, Elementor, Yoast SEO, and Litespeed Cache for a more polished look.
- Managed the Channel Manager to ensure room prices and details were updated across all booking platforms.

### Hackathon Team Member (ASEFSU23)

10/2021 - 11/2021

Asia-Europe Foundation (ASEF)

- Developed wireframes and sitemaps for Ekhane using Miro, designed the website with Figma, and implemented it with Angular.Js and Tailwind.
- Collaborated with the IT Team to bring the website live at the 23rd ASEF Summer University Hackathon.
- Contributed to the Bangladesh Team 4 as a UI/UX Developer, showcasing creativity and technical skills.

### PHP Programmer

01/2019 - 03/2019

PT Kriya Jaya Internasional
